In 2023, we updated our group company philosophy to "Bring joy to many people", and under the corporate philosophy, we will work as one team and devote ourselves to making even greater contributions to as many people as possible.

We look forward to working with you on bringing metal components for your products from concept to creation.

Micro MIM Japan Holdings Inc. CEO Dr. Shigeo Tanaka

We wish you a very happy new year and best wishes for the early spring of 2023. We deeply appreciate your continued support to Micro MIM Holdings Inc. and the Taisei Group.

On a personal note, in January I watched a play at the Osaka Shochikuza, which opened in 1923, marking its 100th anniversary. This time they held "Yugen" as you can see in the picture on the right, a new performance based on a Noh play which is the oldest Japanese traditional performing art and a Japanese musical with dance and music at its core, performed by a leading Kabuki actor, Tamasaburo Bando. Based on the classics but with new wonderful inspirations, it was a piece beyond the traditional art, blending the graceful dance and the heroic musical performance by the Japanese traditional drum performing group Kodo. Our group companies will also continue to take on the challenge of meeting the new demands of our clients for the next 50 years.

We look forward to working with you on more projects and we sincerely hope that this year will be a great one for all of you.
